About

Experience designer at Microsoft shaping Copilot-assisted creation in Microsoft 365. I turn research into workflows and prototypes that help people create with AI, and use visual storytelling to make complex products clear.

Experience

Microsoft

Jun 2023 – Present

Product Designer II · PowerPoint, AI Agent Experiences

Sep 2026 – Present

Microsoft 365 Copilot

• **Leading AI review UX for PowerPoint**, helping users compare, apply, and undo AI changes. Explore side-by-side and full-canvas layouts to improve readability and align the MVP with Word's Review experience.

• **Built an AI bug-bash plugin** that converts recordings into duplicate-checked Azure DevOps bugs with video clips and Teams-ready summaries. Adopted by teammates for daily and biweekly bug bashes.

• **Drive design and craft improvements** for Primus.

Product Designer I

Jul 2024 – Aug 2026

PowerPoint Mobile & AI Powered Creation

- **Designed PowerPoint mobile experiences** for small-screen viewing through user testing and development.
- **Partnered with ML teams** to evaluate AI-generated slides and images; brand-aware outputs scored ~15–17% higher than non-branded outputs.
- **Refined AI generation styles** through deck audits and wrote brand-aware specs for code-generated slides using existing style systems.
- **Built a voice-enabled AI Bug Logger** for structured Azure DevOps reporting and extended it into AI-generated skills that improved slide readability.
- **Built an AI plugin** to auto-tag ~3,000 icons, saving 6,000+ minutes of manual work.

Product Designer I

Jun 2023 – Jun 2024

PowerPoint for the web

- **Designed core PowerPoint web flows**, including shortcuts, and audited the loading experience.
- **Led the FOX Icon Creation System team**, spanning 5,000+ icons across WXP; onboarded designers to scale icon creation.

Design Intern

Sep 2022 – Mar 2023

Microsoft Teams

- **Researched hybrid teaching needs** for a graduation project and designed AI-assisted Teams workflows to help teachers manage workload and work-life boundaries.

Creative Practice

Jan 2017 – Present

- Built and run an online creative community on **Instagram with 25,000+ followers**.
- **Independent Designer (2017 – Present)**: identity and packaging systems for clients, from concept to production.

Education

Graphic Design
M.Des | NID, Ahmedabad
2020 – 2023

Applied Art
BFA | College of Art, Delhi
2016 – 2020

Achievements

FOX Icon System
5,000+ icons redesigned across Microsoft 365

Art Community
25,000+ followers on Instagram

Core Skills

- Product design
- User research
- Agentic AI & human-in-the-loop UX
- AI tool prototyping
- Story telling
- Design systems
- AI output evaluation & quality frameworks

Visual Craft

- Visual identity
- Typography
- Illustration
